

the cost of the pre-positioned resources that were used on the declared fire and the amount of time the resources were pre-positioned, and provide a detailed explanation of the need to fund the pre-positioned resources .

(iii) The State will base the detailed explanation on recognized scientific indicators, that include, but are not limited to, drought indices, short-term weather forecasts, the current number of fires burning in the State, and the availability of in-State firefighting resources. The State may also include other quantitative indicators with which to measure the increased risk of the threat of a major disaster.

(iv) Based on the information contained in the State's notification, the Regional Director will determine the number of days of pre-positioning to be approved for Federal funding, up to a maximum of 21 days before the fire declaration.

(3) Upon rendering his/her determination on pre-positioning costs, the Regional Director will notify the Associate Director of his/her determination.

(f) *Emergency work.* We may authorize the use of section 403 of the Stafford Act, Essential Assistance, under an approved fire management assistance grant when directly related to the mitigation, management, and control of the declared fire. Essential assistance activities that may be eligible include, but are not limited to, police barricading and traffic control, extraordinary emergency operations center expenses, evacuations and sheltering, search and rescue, arson investigation teams, public information, and the limited removal of trees that pose a threat to the general public.

(g) *Temporary repair of damage caused by firefighting activities.* Temporary repair of damage caused by eligible firefighting activities listed in this subpart involves short-term actions to repair damage directly caused by the firefighting effort or activities. This includes minimal repairs to bulldozer lines, camps, and staging areas to address safety concerns; as well as minimal repairs to facilities damaged by the firefighting activities such as fences, buildings, bridges, roads, etc. All temporary repair work must be completed within thirty days of the

close of the incident period for the declared fire.

(h) *Mobilization and demobilization.* Costs for mobilization to, and demobilization from, a declared fire may be eligible for reimbursement. Demobilization may be claimed at a delayed date if deployment involved one or more declared fires. If resources are being used on more than one declared fire, mobilization and demobilization costs must be claimed against the first declared fire.

(i) *Fires on co-mingled Federal/State lands.* Reasonable costs for the mitigation, management, and control of a declared fire burning on co-mingled Federal and State land may be eligible in cases where the State has a responsibility for suppression activities under an agreement to perform such action on a non-reimbursable basis. (This provision is an exception to normal FEMA policy under the Stafford Act and is intended to accommodate only those rare instances that involve State firefighting on a Stafford Act section 420 fire incident involving co-mingled Federal/State and privately-owned forest or grassland.)

§ 204.43 Ineligible costs.

Costs not directly associated with the incident period are ineligible. Ineligible costs include the following:

(a) Costs incurred in the mitigation, management, and control of undeclared fires;

(b) Costs related to planning, pre-suppression (*i.e.*, cutting fire-breaks without the presence of an imminent threat, training, road widening, and other similar activities), and recovery (*i.e.*, land rehabilitation activities, such as seeding, planting operations, and erosion control, or the salvage of timber and other materials, and restoration of facilities damaged by fire);

(c) Costs for the straight or regular time salaries and benefits of a subgrantee's permanently employed or re-assigned personnel;

(d) Costs for mitigation, management, and control of a declared fire on co-mingled Federal land when such costs are reimbursable to the State by a Federal agency under another statute (See 44 CFR part 51);

Federal Emergency Management Agency

§ 204.51

(e) Fires fought on Federal land are generally the responsibility of the Federal Agency that owns or manages the land. Costs incurred while fighting fires on federally owned land are not eligible under the Fire Management Assistance Grant Program except as noted in § 204.42(i).

§§ 204.44–204.50 [Reserved]

Subpart D—Application Procedures

§ 204.51 Application and approval procedures for a fire management assistance grant.

(a) *Preparing and submitting an application.* (1) After the approval of a fire management assistance declaration, the State may submit an application package for a grant to the Regional Director. The application package must include the SF 424 (Request for Federal Assistance) and FEMA Form 20-16a (Summary of Assurances—Non-construction Programs), as well as supporting documentation for the budget.

(2) The State should submit its grant application within 9 months of the declaration. Upon receipt of the written request from the State, the Regional Director may grant an extension for up to 3 months. The State's request must include a justification for the extension.

(b) *Fire cost threshold.* (1) We will approve the initial grant award to the State when we determine that the State's application demonstrates either of the following:

(i) Total eligible costs for the declared fire meet or exceed the individual fire cost threshold; or

(ii) Total costs of all declared and non-declared fires for which a State has assumed responsibility in a given calendar year meet the cumulative fire cost threshold.

(2) The individual fire cost threshold for a State is the greater of the following:

(i) \$100,000; or

(ii) Five percent \times \$1.07 \times the State population, adjusted annually for inflation using the Consumer Price Index for All Urban Consumers published annually by the Department of Labor.

(3) The cumulative fire cost threshold for a State is the greater of the following:

(i) \$500,000; or

(ii) Three times the five percent \times \$1.07 \times the State population as described in § 204.51(b)(2)(ii).

(4) States must document the total eligible costs for a declared fire on Project Worksheets, which they must submit with the grant application.

(5) We will not consider the costs of pre-positioning resources for the purposes of determining whether the grant application meets the fire cost threshold.

(6) When the State's total eligible costs associated with the fire management assistance declaration meet or exceed the fire cost threshold eligible costs will be cost shared in accordance with § 204.61.

(c) *Approval of the State's grant application.* The Regional Director has 45 days from receipt the State's grant application or an amendment to the State's grant application, including attached supporting Project Worksheet(s), to review and approve or deny the grant application or amendment; or to notify the Grantee of a delay in processing funding.

(d) *Obligation of the grant.* Before we approve the State's grant application, the State must have an up-to-date State Administrative Plan and a Hazard Mitigation Plan that has been reviewed and approved by the Regional Director. Once these plans are approved by the Regional Director, the State's grant application may be approved and we may begin to obligate the Federal share of funding for subgrants to the Grantee.

(1) State administrative plan.

(i) The State must develop an Administrative Plan (or have a current Administrative Plan on file with FEMA) that describes the procedures for the administration of the Fire Management Assistance Grant Program. The Plan will include, at a minimum, the items listed below:

(A) The designation of the State agency or agencies which will have responsibility for program administration.
